COMMUNICATIONS

we get it

Switchvox®

Digium, the Company
that's Reinventing the
Phone System

Switchvox is the Best Communications System for Your Business

The combination of the Switchvox system and Digium phones provides a complete communications solution for small and mid-sized businesses. It's more than a phone system—it's a better way to communicate. This Unified Communications system integrates all of your office communications, including phone, fax, chat and web mashups. Customize your communications experience right down to the phone. Access call queues, your presence, and the applications you need, right on your desk phone.

Do more than just talk—count on Switchvox to help you easily transition from simple telephony to a feature-rich UC solution. Now you can truly communicate the way you want to communicate. You can improve productivity by accessing all of your office communications tools no matter where you are—on a mobile phone or at the office. Talk about flexibility!

Who is Digium?

Digium's VoIP solutions provide a competitive edge for small, mid-sized and large businesses. Digium's product lines include Asterisk® custom communications, Switchvox® Unified Communications (UC), and a family of HD IP phones that deliver enterprise-class features at a price businesses can afford.

Digium® is the creator, primary developer and sponsor of Asterisk, the world's most widely used open source communications software. Asterisk turns an ordinary computer into a feature-rich voice communications server.

Switchvox is the award-winning, UC solution built on the power of Asterisk with thousands of installations worldwide.

Switchvox is the Smarter Choice for Your Next Phone System

Saves You Money

Out of the box, Switchvox has more features and is more affordable than proprietary systems that have fewer features! Customers can save up 70% on their monthly expenses in telephony costs and service charges. And because we don't lock you in to specific service providers or equipment vendors for your network, you can choose a solution that fits your needs and your budget.

With Switchvox, customers can save up 70% on their monthly expenses in telephony costs and service charges.

Easy to Manage

Out of the box, Switchvox has more features and is more affordable than proprietary systems that have fewer features! Customers can save up 70% on their monthly expenses in telephony costs and service charges. And because we don't lock you in to specific service providers or equipment vendors for your network, you can choose a solution that fits your needs and your budget.

Many Products in One

Switchvox is more than just a business phone system. When combined with Digium phones, it is a complete Unified Communications solution. The system combines the power of many products into one such as a conference bridge, chat/ instant messaging server and fax server.

Consolidate some of your office activities and save more money in the process.

Grows With You

You want a system that will easily accommodate future growth, without unexpected expenses. Scalability and advanced features are just what Switchvox provides. The flexibility of Switchvox allows you to easily add new users, whether in the office or mobile or even remote locations as your business expands, without disrupting your current communications system.

Digium Phones allow you to

- Enjoy crystal clear HDVoice
- Easily customize and control your caller's experience with built-in phone apps
- Enhance your communications with a fully-integrated end-to-end solution

Switchvox Provides the Power to Communicate Where and How You Want, whether you're at your desk or on the road

POWERFULLY INTUITIVE

Let the Switchvox phone systems work for you by easily integrating other business applications with your phone calls. Access real data, trigger events and enable business processes with incoming calls. Automatically access your caller's record with built-in support for Salesforce.com and Sugar CRM. Administrators and Users are able to access real-time call queue information, access detailed reports and logs easily in Switchvox. Monitor calls whether you're remote or in the office. Know everything you need to know about your caller even before you pick up the phone.

POWERFULLY COLLABORATIVE

Today's conversations involve more than just your voice. With Switchvox, you can click on an extension to initiate high-definition calls with the Digium phones. Switchvox systems also support high-quality video-calling so you feel more connected with remote callers and won't have to miss a facial expression. Think of how much you can save if you don't have to get on an airplane every time you want to get business done.

POWERFULLY MOBILE

You define where and when you communicate. Imagine being able to receive your office phone calls on any phone. Whether you are at your desk, on your cell phone or using the hotel phone, others in your office will see you are on the phone – your "presence" stays with you. With Fixed Mobile Convergence, easily transfer calls from any phone back to your Digium desk phone or another caller without interrupting the call, allowing you to take your office on the road!

The Switchvox Switchboard Puts your Entire Communications System Just One-Click Away

The Switchboard interface provides a central hub for various communication and business tools. Key features include:

- Phonebook:** Lists extended and normal entries with contact details and status.
- Profile:** Displays user information for John Smith, including extension, email, and location.
- Salesforce:** Integrates with Salesforce CRM to show call logs and contact information.
- Chat:** Real-time messaging interface with a chat history and a "Start New Chat" button.
- Parking Lot:** A table for managing parked calls.
- Current Calls:** A table showing active and on-hold calls.
- Directory:** A searchable directory of extensions and names.
- Customer Support:** A section for managing call queues and support tickets.

**Google Maps is supported in North America.*

The Switchboard is available for every user

Drag-and-drop calls, chat, update your CRM system, and more, all with the unique capabilities of the Switchboard web-interface. Note, Switchvox panels are not limited to the Switchboard. Access key data right from your Digium phone—such as presence, queue details, and more.

Switchvox provides all of these features and more in every system, without any additional licensing or cost!

The Switchboard Web-Interface Provides Real-Time Call Control and More

Presence

See who is in the office, and know who is on a call or away from their desk. Call rules update automatically based on an employee's presence.

Chat (Instant Messaging)

Improve employee communication with integrated chat. Communicate however your workflow demands, without using unsecured public chat servers for corporate communications.

Traditional and VoIP Calls

By mixing VoIP with traditional calls, your business can optimize communications and save money without sacrificing features.

Recording and Monitoring

Great for training and auditing calls, managers can easily monitor, whisper, barge and record calls from the Switchboard. You can also record calls directly from your Digium phone.

Real-Time Interaction

Switchvox's Switchboard has click-to-call, and drag-and-drop transfers, and other features that make it easier than ever to communicate intuitively.

Switchvox Apps (Mashups)

Easily mashup Switchvox with any web application to give your employees everything they might need for a call, before they answer it!

Call Queues (Automated Call Distribution)

Not just for the call center, Switchvox and Digium phones bring powerful call queuing functionality to even the smallest business that needs to efficiently handle inbound calls.

CRM Integration

Switchvox is integrated with Salesforce.com and SugarCRM. Your sales and service organization will have customer information right at their fingertips when they get a phone call. What a productivity boost!

Switchvox Offers Enterprise-Class Features at a Price You Can Afford

Microsoft® Integration

Switchvox Notifier fully integrates with Outlook® Calendars, Emails, Tasks and Contacts as well as Word®, PowerPoint® and Excel®.

Unified Messaging

With voicemail delivered to your inbox or mobile device, you can stay in communication, wherever you are.

Reporting and Call Logging

See details about all calls in your system. Custom, statistical reports can be scheduled and emailed to you automatically.

Conferencing

A built-in conference bridge allows all of your employees to manage their own conference rooms on-demand.

Video Calling

Collaborating over long distances has never been easier or less expensive since video phones are compatible with Switchvox.

Fax

With Switchvox, fax is integrated. Meaning, one number can be used for your faxes and your calls. Faxes are delivered directly to your inbox!

Developer Friendly

Switchvox's XML-based Extend API makes it easy for a web application developer to integrate Switchvox with any web tool, without any Switchvox-specific training.

Interactive Voice Response

The extensive built-in IVR allows you to automatically provide information as well as collect information to the caller, and get the caller where they need to when they first call your office.

Mobility (Fixed Mobile Convergence)

Receive, transfer and record calls from any phone and any location through Switchvox. With the mobile apps for the iPhone, Blackberry and Android, you can easily access your favorite features of Switchvox from your smart phone.

With all features included, Digium is recognized as the Best Value in UC Phone Systems.

“SMBs are expected to continue to retain a cautious approach to spending, and their UC decisions will be shaped not only by business process and communications improvements, but also by hard cost factors (like cost savings). This means some SMBs will take a more evolutionary approach to UC as they leverage existing investments in phones or communications infrastructure instead of migrating to UC suites in a single leap.”

Gartner, Marketscope Report, Magic Quadrant for Corporate Telephony

Written by: Jay Lassman, Steve Blood, Geoff Johnson — 9/15/2011

Digium, ShoreTel and Microsoft are positioned in the Visionaries

Quadrant of Gartner, Inc.'s 2011 Magic Quadrant for

Corporate Telephony report.

We're changing the way the world communicates Again

Digium®, Inc. provides Asterisk® software, telephony hardware, and Switchvox® business phone systems that deliver enterprise-class Unified Communications at an affordable price. Digium is the creator, primary developer and sponsor of the Asterisk project; the world's most widely used open source communications software. Asterisk turns an ordinary computer into a feature-rich communications server. With a community of more than 80,000 developers and users worldwide, Asterisk has been used to create VoIP communication solutions in more than 170 countries. Since 1999, Digium has empowered developers to create innovative communications solutions based on open standards and open source software, providing an alternative to proprietary phone system vendors. Digium's business communications products are sold through a worldwide network of reseller partners.
